IB Students Only:			
Please circle one:	Creativity	Action	Service

Students can earn community service hours by participating in projects or events that are unpaid, non-court ordered, that do not promote a political candidate or group, and that do not promote or denigrate religion. Club meetings are not community service. All service hours must be approved by the community service coordinator before they will be included on a student's transcript.

Students who complete 75 hours in one community service project will earn .50 credit in Voluntary Public Service (Course #0500370).
